OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 2 February 1972

25X1

1. [] Bill Woodruff, Counsel, Senate Appropriations Committee, called to say Monday, 14 February, was out for the Defense Subcommittee and wondered whether the Director would be available on 15 or 16 February. I said he was committed to the Joint Committee on Atomic Energy on the 16th, so this was out, and we tried to avoid briefings two days running wherever possible. I asked Woodruff whether the Appropriations briefing could be limited to the morning only, but he said he couldn't promise this. I said I would be back in touch after consulting the Director.

25X1

2. [] Ed Braswell, Chief Counsel, Senate Armed Services Committee, called to ask who was "policing" the [] ceiling on expenditures in Laos. I said I thought the State Department, but would confirm this. After consulting with Chuck Briggs, OPPB, I called back to say that the White House had indeed designated the State Department as the responsible agency in this matter.
